Field Customizable

Leto 16 is Senso's premium field-customizable light fixture. The fixture is comprised of three main sections; the body assembly, the reflector/accessory and the front ring. Ordering multiple reflectors and accessories will prolong the life of the Leto 16 by adapting it to changing scenes and spaces.

The quick and toolless process of swapping accessories and reflectors means instant results to fine tune your lit up effect.

Photometrics

Senso's in-house photometric testing ensures that our lighting design can match your needs precisely. Our Goniophotometer and testing lab produces on-demand photometry files based on any specified fixture, including LM-79 Test reports, IES Files, and CRI/CCT measurements. See Sensolighting.com for more information.

Color Metrics

TM 30-15

Our clients deserve the best information possible about their lighting choices. That's why Senso has invested in the Illuminating Engineering Society (IES) TM 30-15, a new system that measures an LED light source's color rendering properties. Using Senso's state-of-the-art goniophotometer, this method identifies the optimal light source for your project and helps evaluate the trade-offs between efficacy and color rendering. Senso can provide TM 30-15 data for all of our products.
