1

NOTE: Prior to installation all 24VDC wires must be present within 72" of the installation. Refer to the power supply installation instruction for additional information.

NOTE: More than one person is recommended for this installation.

1.1 Once the location or pattern is determined for Plexineon to be installed, start off by marking the area. Amount of mounting clips may vary dependant upon pattern. Reference diagrams below.

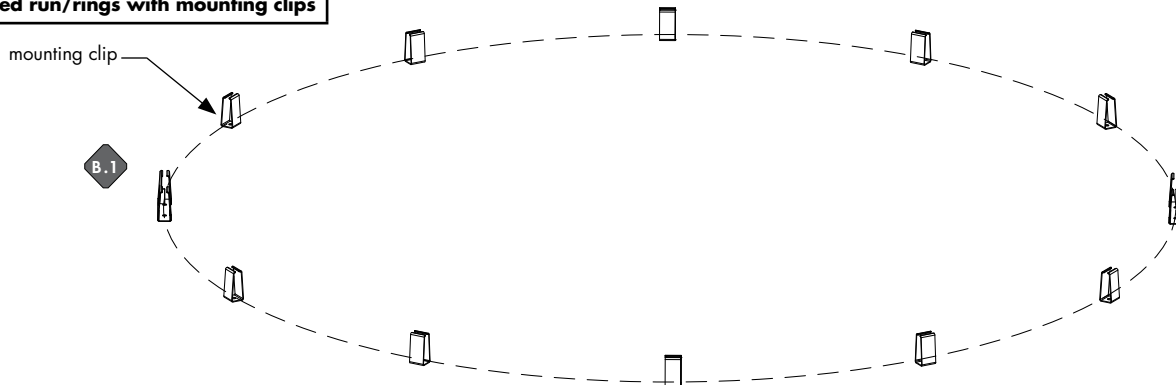

Straight run with mounting clips

A.1

screw

30"

standard mounting clip

A.2

plexineon fixture

mounting clip

A.1 Line up and screw on the mounting clips to the mounting holes with no greater than 30" apart. Make sure it is straight by using a level.

A.2 Fix the plexineon fixture into installed mounting clips. See page 3 for clipping instructions.

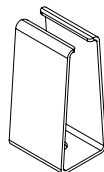

Curved run/rings with mounting clips

mounting clip

B.1

B.1 Determine the shape of the plexineon layout, then mark thel pattern onto the surface. Place the mounting clips with no greater than 30" apart. Screw onto surface.

B.2 Fix the plexineon bend/ring fixture into installed mounting clips. See page 3 for clipping instructions.

NOTE: Standard Clips and Decorative Clips have different required spacing.

standard mounting clip
30" space

decorative mounting clip
18" space
