SLW20 Channel has been discontinued on September 8th, 2026.

SLW20 Channel | Extruded aluminum profile

optic arts by luminii

Features

The SLW20 Channel is a surface-mount anodized aluminum extrusion that can accommodate a wider range of LED strips. SLW20 can be mounted with mounting brackets or adhesive directly onto the desired surface. The extrusion profile comes with frosted or clear diffuser. End caps and mounting brackets sold separately. Extrusion is field cuttable.
